Open Public Hearing for Local Law No. 1 of 2026:

Supervisor Wadsworth opened the Public Hearing for Local Law No. 1 of 2026 and invited comments from board members and the public.

Councilmember Deming provided the following information.

The local law as written would only allow for marijuana dispensary in the General Commercial district, essentially Genesee Valley (Wegmans) Plaza to Pond Side (Geneseo Hardware) Plaza.

One item of note is the reference to "Banquet/Wedding facility" use. This was chosen for the following reasons:

- Wanting to have a dispensary be a specially permitted use requiring planning board approval (matching the approach that the village took).
- While 'liquor store' seemed like the most similar use (due to age restrictions), we do not have a specific use in our code for that.
- 'Drinking establishment or tavern' is the closest we have to a 'liquor store' but that does not require a special use permit.
- A 'banquet/wedding facility' has the same zoning requirements as a 'drinking establishment or tavern' but requires a special use permit, so that was identified as the most similar use.

Addressing the concern regarding the limited number of locations within the General Commercial (GC) district:

- This aligns with the village's approach of limiting usage to only one zoning district.
- The GC district is our largest non-residential district and where all of our liquor stores, restaurants, and drinking establishments/taverns are located.
- While not yet in operation, the town is aware of the village approving a dispensary within the village at 4245 Lakeville Road. By NYS rule, a 2,000-foot proximity exclusion radius from this location would essentially prohibit a dispensary in the town's Genesee Valley Plaza but leave Pond Side Plaza as a viable location. This is not the Town's choice, as our intent is to allow a dispensary anywhere in the General Commercial District.

Minutes of the Geneseo Town Board Meeting
March 11, 2026

Addressing the concern that other zoning districts do allow for a restaurant/drinking establishment/tavern:

- The other districts that allow for a 'drinking establishment or tavern' are the following:
 - Lakefront Neighborhood Commercial
 - This was not included because this district does not have any remaining commercial properties.
 - Mixed-Use I
 - This is the 'purpose statement' from the town code: *The purpose of the MUI District is to permit mixed-use developments that incorporate light industrial and office uses, while also providing opportunities for supporting limited commercial and residential uses...The intent of this district is to increase employment opportunities for residents and enhance the tax base within the Town through the responsible development of diverse, sustainable mixed-use light industrial and professional office campuses.*
 - This was not included because this district favors office development over purely commercial endeavors.
 - Mixed-Use II
 - This is the 'purpose statement' from the town code: *The purpose of the MUII District is to permit mixed-use developments that meet the community housing and daily commercial service needs of residents, while also providing a transition from the industrial and office uses allowed within the Mixed-Use I and III Districts. The intent of the MUII District is to develop a mix of limited commercial uses with higher-density residential uses that create a unique and attractive living environment for all residents, and which encourage the development of senior and affordable housing opportunities.*
 - This was not included because the district favors residential development over purely commercial endeavors.

Addressing the concern that there are other commercial zoning districts:

- Our intention is to limit dispensaries to purely commercial districts. While cannabis is legal in NY, we do not feel it should be promoted in residential areas. Similar to a drinking establishment, tavern or liquor store, there is a distinct difference between a business that requires an ID to enter versus a restaurant that is open to all ages. Additionally, cannabis remains illegal on a federal level, which is another factor taken into account by limiting dispensaries to purely commercial districts.

**Minutes of the Geneseo Town Board Meeting
March 11, 2026**

- Other notable districts are:
 - Mixed-Use III (restaurants allowed but not drinking establishment/tavern)
 - This is the ‘purpose statement’ from the town code: *The purpose of the MUIII District is to encourage mixed-use developments that incorporate light industrial, office, and limited commercial uses, while also providing opportunities for upper-floor residential uses. Larger retail, entertainment, recreation, and accommodation uses shall be focused within this district. The intent of the MUIII District is to create a diverse and sustainable economic driver for the Town that not only meets the needs of residents but also increases their overall quality of life.*
 - This was not included because the district favors large retail commercial endeavors.
 - Limited Commercial (no restaurants or drinking establishments/taverns)
 - This is the area across from the college on Route 63 (by Scorsone’s and the storage units). The feedback we received from law enforcement, the fire department and SUNY Geneseo were a general concern regarding pedestrian safety in this area, as there are no sidewalks or crosswalks.
 - This was not included because of this public feedback.

Stop Signs at Crossett Road and Long Point Road Extension:

Councilmember Mix proposed the motion, which was seconded by Councilmember Reitz, to make the three-way stops at Crossett and Long Point Roads permanent. The motion was adopted with the following votes: Wadsworth - aye, Deming - aye, Reitz - aye, Mix - aye, and Griffo - aye. No nays were recorded.

Approval of the Agreement for the Expenditure of Highway Moneys 2026:

Councilmember Reitz proposed the motion, which was seconded by Councilmember Deming, to approve the Agreement for the Expenditure of Highway money. The motion was adopted with the following votes: Wadsworth - aye, Deming - aye, Reitz - aye, Mix - aye, and Griffo - aye. No nays were recorded.

Supervisor Wadsworth stated that the Code Enforcement Office fee schedule adopted at February 11, 2026, meeting was missing fees for several items. He recommended adopting a revised fee schedule that includes the missing fees.

The Board took the following action:

Adopting the Updated 2026 Code Office Fee Schedule:
