RESIDENT NOTICE

Date: 7/21/2026

RE: Second Street – Oak Street Rebuild and Rehab Project

Second Street Residents,

Tomorrow morning, 7/21/2026 we will begin installing the Sanitary Sewer Main, beginning at North St.

When entering/exiting the area please travel through either Oak or Center St. Plan on this route of travel until notified otherwise. Our excavation will be taking place directly in the middle of the road so through travel will not be possible.

As we progress down the road we will give notices letting you know when we expect to be working in the immediate vicinity of your house.

Our planned work hours will be 6:30am-4:30pm, with prep work taking place at 6:30am and construction activities beginning at 7am.

Please avoid parking vehicles on the street during working hours. Vehicles parked within the work zone may interfere with construction operations and could be required to relocate.

Every effort will be made to minimize disruptions and maintain access whenever possible. We appreciate your patience and cooperation as these important infrastructure improvements are completed.

If you have any questions or concerns regarding the project, please contact:

**Mike Nevinger
Project Manager
585-794-0829
mike@rocearthinc.com**

Thank you for your understanding and cooperation.
